

CLASSIC aluminium mat with rubber and linear brush 1:1, height 22-23 mm

Technical data

Description

Flat aluminium profiles with rubber and a linear brush. Roll-up, easy to clean. Stops dirt through active operation of a linear brush, situated above the rubber surface. High cleaning effect. Perfectly removes sand and other debris. Active rubber profile notched perpendicular and parallel to the length, safe under the conditions of freezing drizzle.

Application

Recommended for indoor and outdoor areas. Suitable for zones with high pedestrian traffic (up to 2000 people a day), but the mat is not resistant to movements of vehicles or carts. Used as the only independent cleaning element at the entrance.

Materials

Support profiles: aluminium / height 17mm x width 14mm;
height 17mm x width 24mm /
Standard EN-573-3

Insert: cross-ribbed rubber / Standard BN-80 / 6613-04
nylon brushes 0.4 mm / NY.040
Standard EN 13501

Connector of elements: stainless steel line Ø 3mm, every 30 cm, the
minimum tensile strength of 5.06 kN /
Standard EN 12385-4

Connecting element: chrome-plated brass cylinder with clamping screw/
DIN EN ISO 9001: 2000

Spacers: rubber of 5mm or 3mm thickness /
Standard BN-80 / 6613-04

Backing: acoustic foam for indoor / ISO 9001: 2008

Dimensions

Height: 22 mm – without backing
23 mm – with backing

Weight: 18.5 kg/m²

Colour:

Support profile: natural aluminium
Rubber: black
Brush: black, grey, brown, green, red, blue

Adhesive Permissible load

natural rubber solution / Standard PN-EN-1239-211-U
1200 kg/1 dm²

Attestation

PZH no. HK/B/1001/01/2017 (National Institute of Public Health, Warsaw, Poland). In combination with brush 3:1 gives the slip resistance in accordance with standard DIN51130 - R10.
